Introducing...

Large Loose Parts!

OPAL Risk/Benefit Assessments

Outdoor Play and Learning: Loose Parts

The benefits of loose parts are that we can:

- Take turns.
- Socialise.
- Make new friends.
- Learn to regulate our own emotions.
- Be resilient.
- Develop our fine and gross motor skills.
- Explore our creativity.
- Have fun.
- Develop skills of coordination and problem solving.
- Build dens.
- **Lift carefully.**
- **Use for building only.**
- **Report dangerous broken items or exposed nails.**
- **Be kind and fair when selecting items.**
- **Where possible collaborate!**
- **Be EITHER underneath OR on top.**
- **Carry out your own risk assessment (is what you are doing exciting or dangerous?)**
- **Pack everything in its designated area at the end of OPAL.**
- **No creation is owned. People can take items if you are not there!**

Remember to be aware of who is behind you,
especially if you are swining something.

Tidying Up

This week's total: 14/20

Total: 41/100

We are working towards: 15 minutes extra play

Update:

The Opalometer is changing!

We are removing general points for food wastage and general tidying up.

Points will now be awarded for:

- Completion of Class Jobs
- Tidying the loose parts at the end of every

Reminder- Your OPSAL class jobs are:

Year 6: Music system- to bring out and put back the music system.

Year 5: Daily bubbles in Zone 3 filled.

Year 4: Chalk- 5 pieces in Zone 3.

Year 3: Bubble machine on Fridays.

Year 2: Cardboard boxes.

Year 1: Chalk – 5 pieces in Zone 1.

EYFS: To fill the water.

Just one thing more...

Ice packs are for serious injuries.

If you need to apply an ice pack you will sit in the lunch hall so you can be monitored.
